Register a Model Service Provider Account

Register a Model Service Provider Account

1. Course Content
2. Register Alibaba Cloud Model Studio Platform Account
   2.1 Alibaba Cloud Bailian (International Site)
3. OpenRouter Platform Account
   3.1 Registering an Account
   3.2 Creating an API

1. Course Content

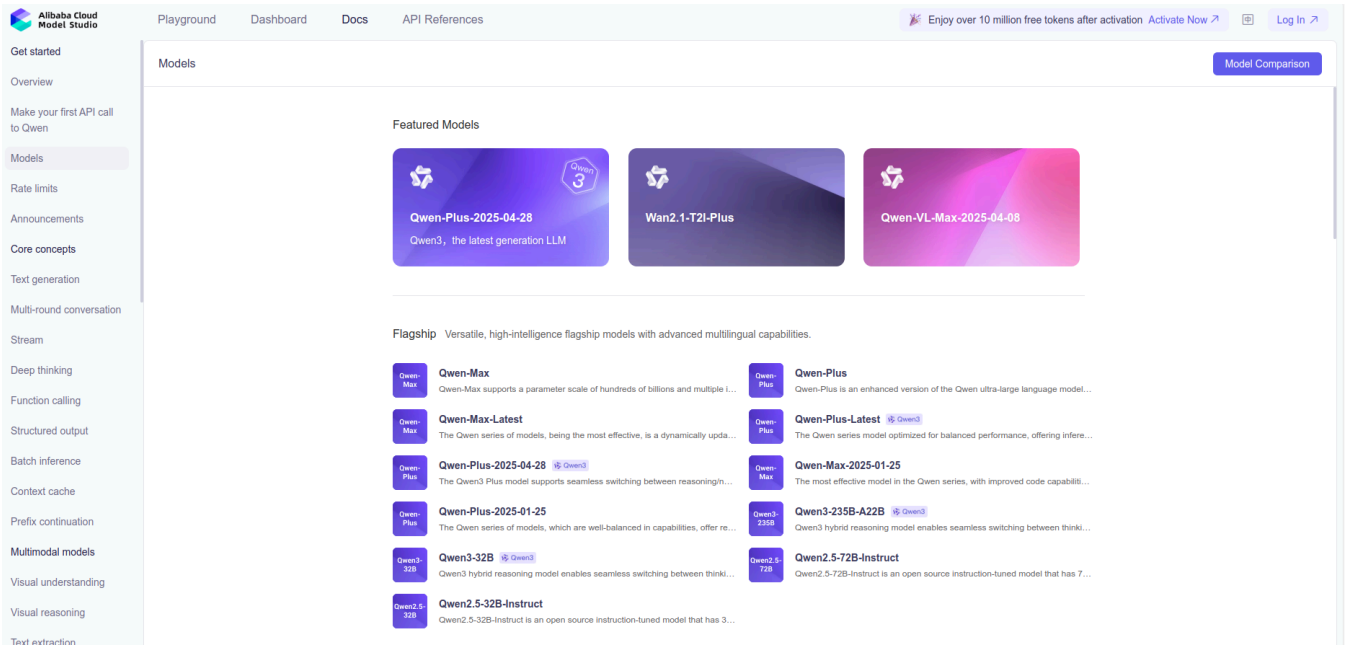

- Register a model service provider account and obtain an API-KEY using your own email or phone number to gain access to cloud AI models.

2. Register Alibaba Cloud Model Studio Platform Account

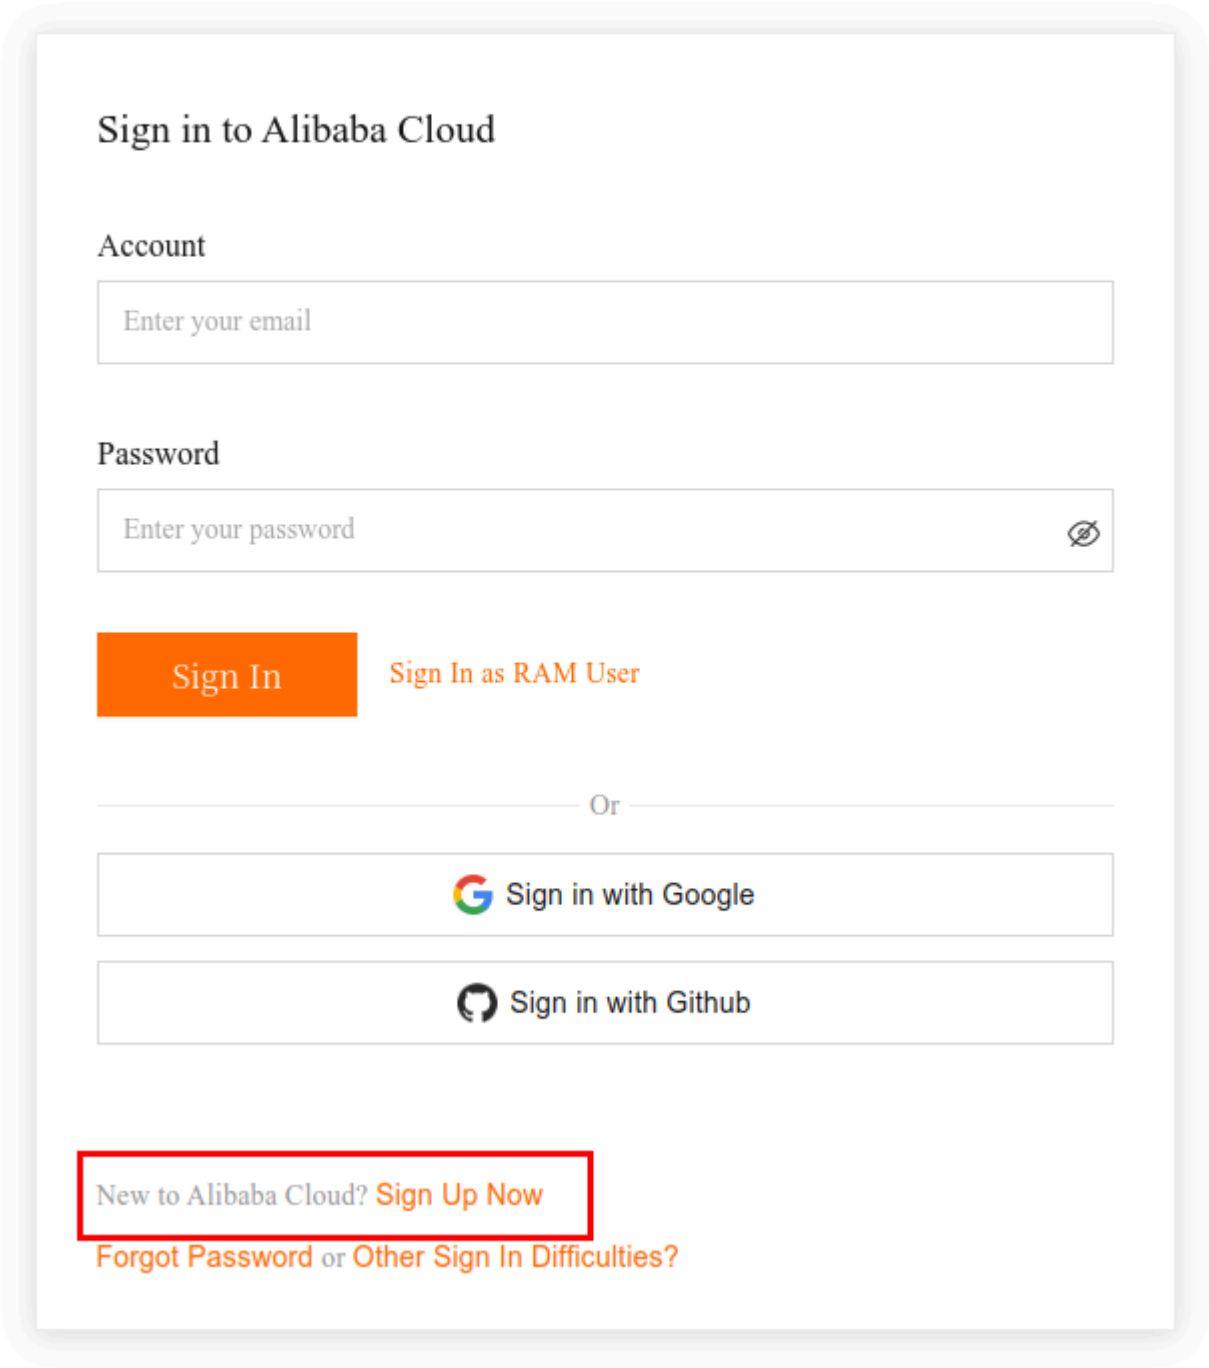

2.1 Alibaba Cloud Bailian (International Site)

International site address: https://bailian.console.alibabacloud.com/?tab=doc#/doc/?type=model&url=https%3A%2F%2Fwww.alibabacloud.com%2Fhelp%2Fen%2Fdoc-detail%2F2840914.html&renderType=component

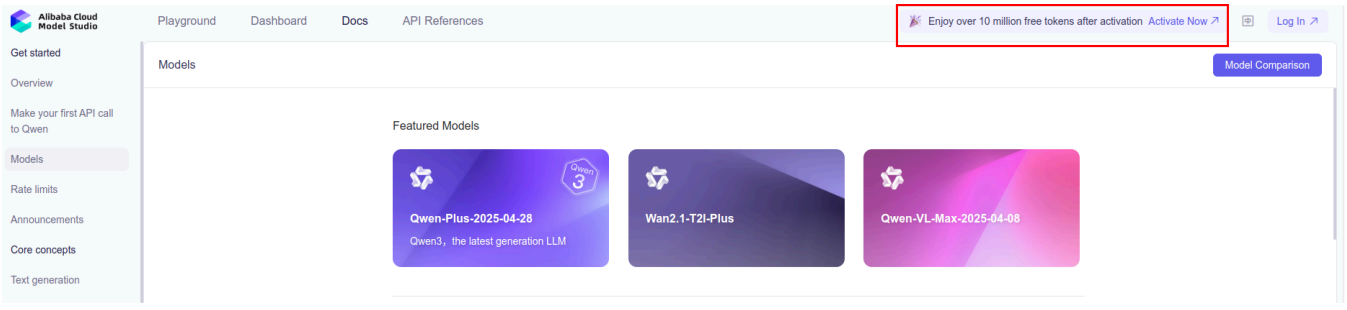

- Click `Log in` to register an account.

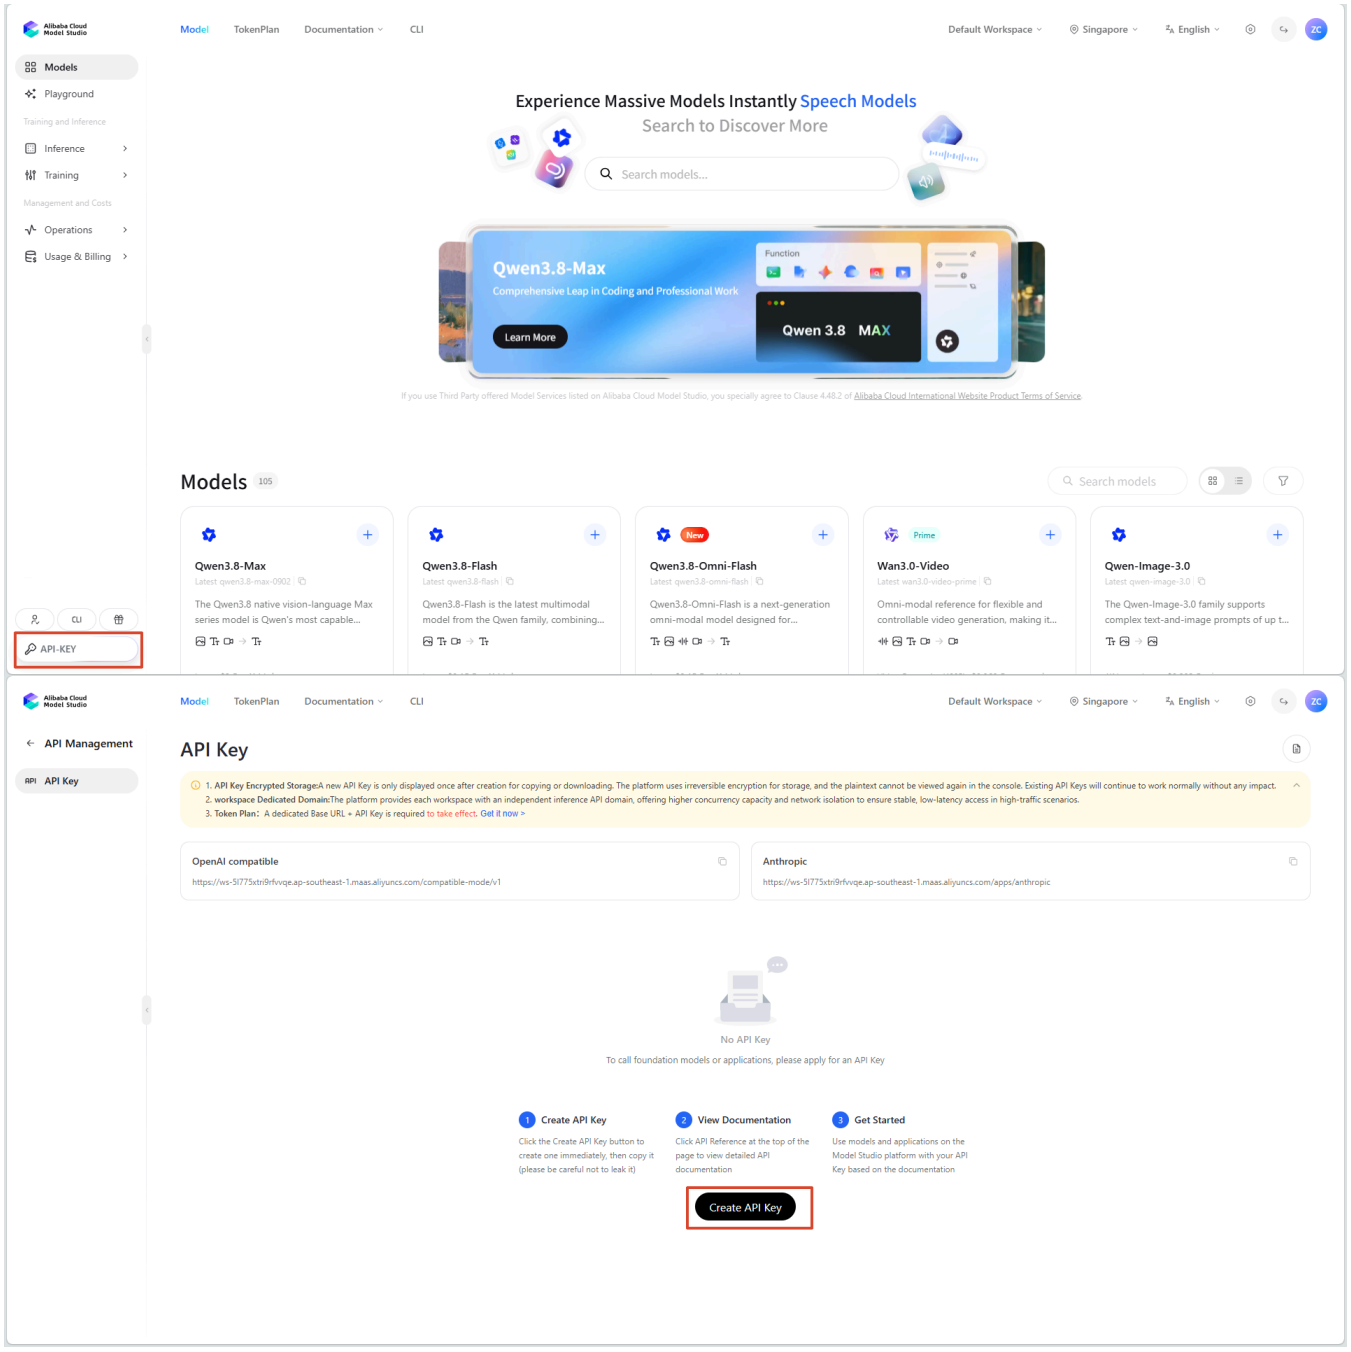

- Select the individual account type to register.

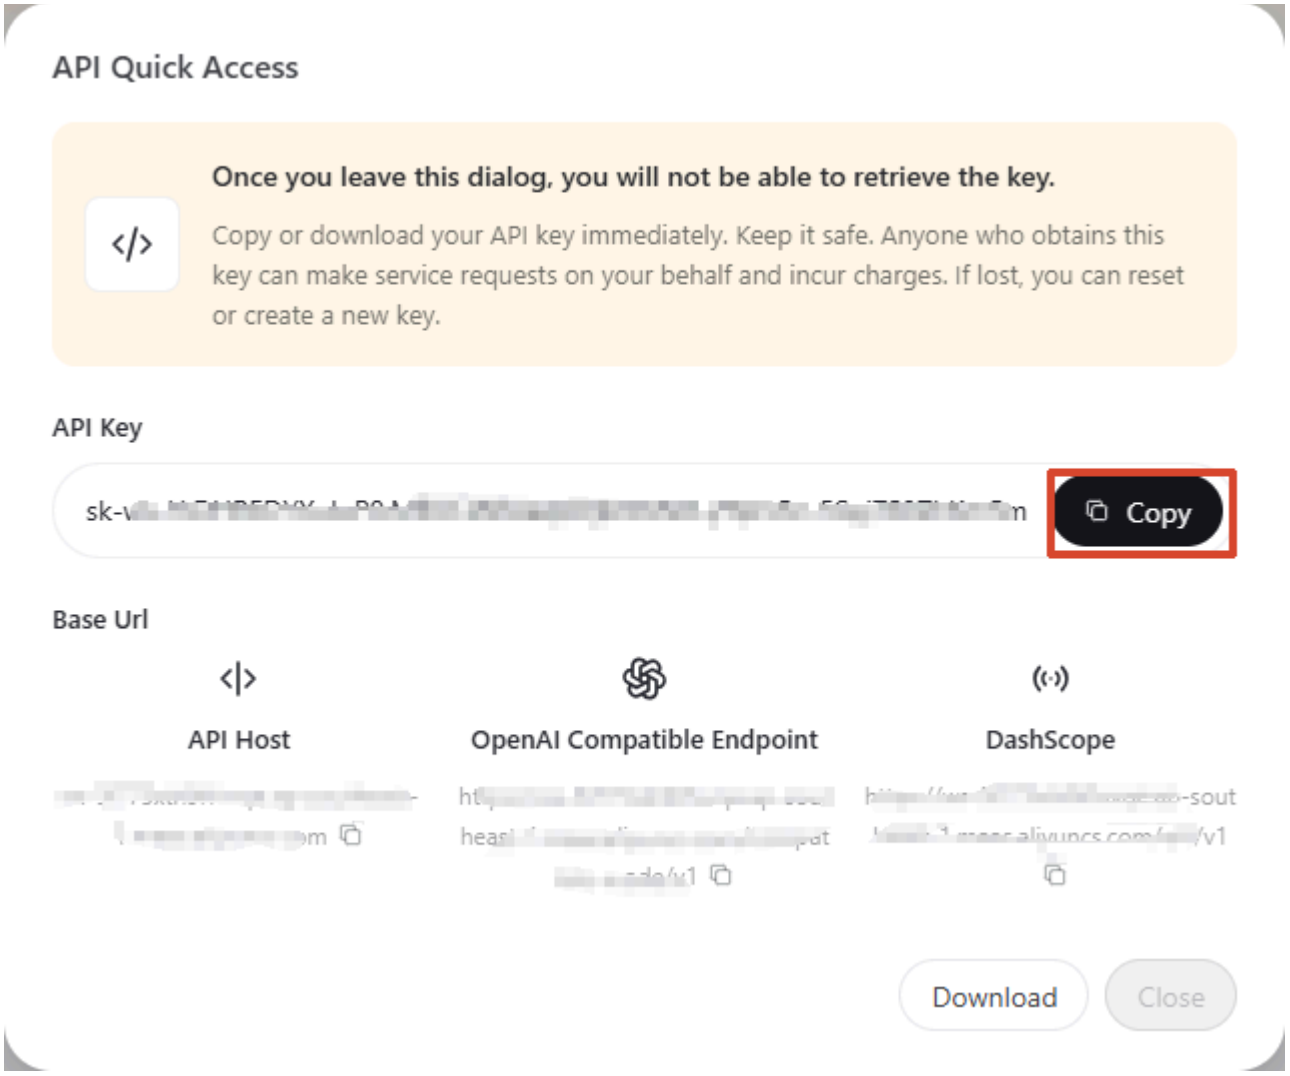

- Return to the home page and click to claim the free quota.

- Then click `API-KEY` to create an API-Key.

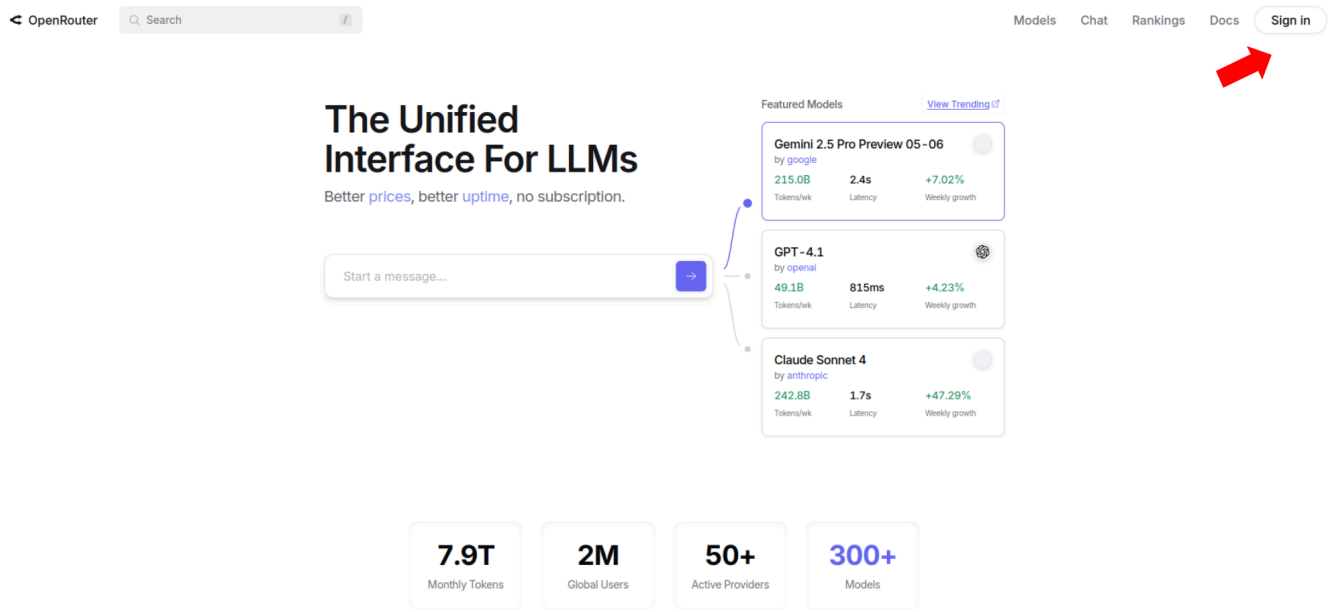

3. OpenRouter Platform Account

> **Note**
>
> - OpenRouter provides many free model services, but there are access frequency limits and the comprehension ability of the free models varies greatly. To ensure a good user experience, we recommend prioritizing the Alibaba Cloud Bailian model service. This section is provided only for reference for users who need to use the OpenRouter service.

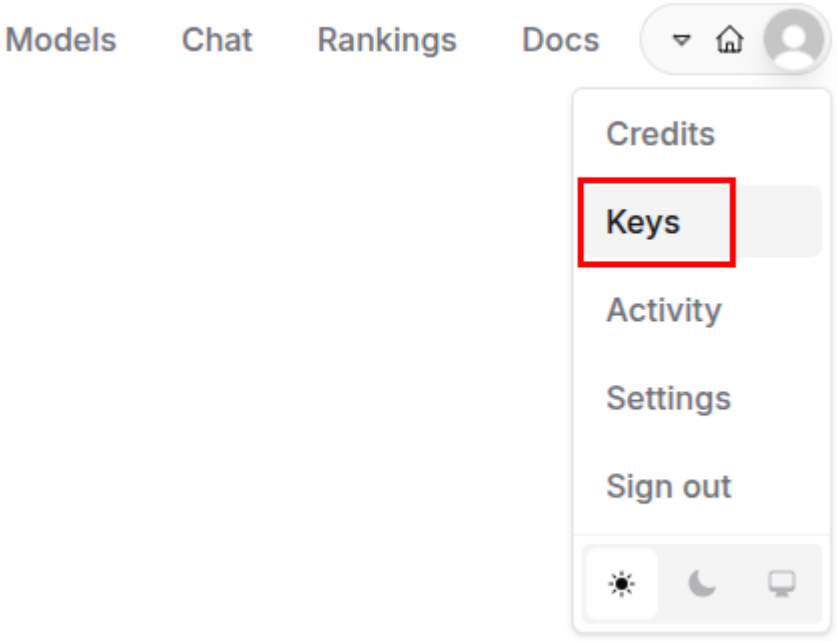

3.1 Registering an Account

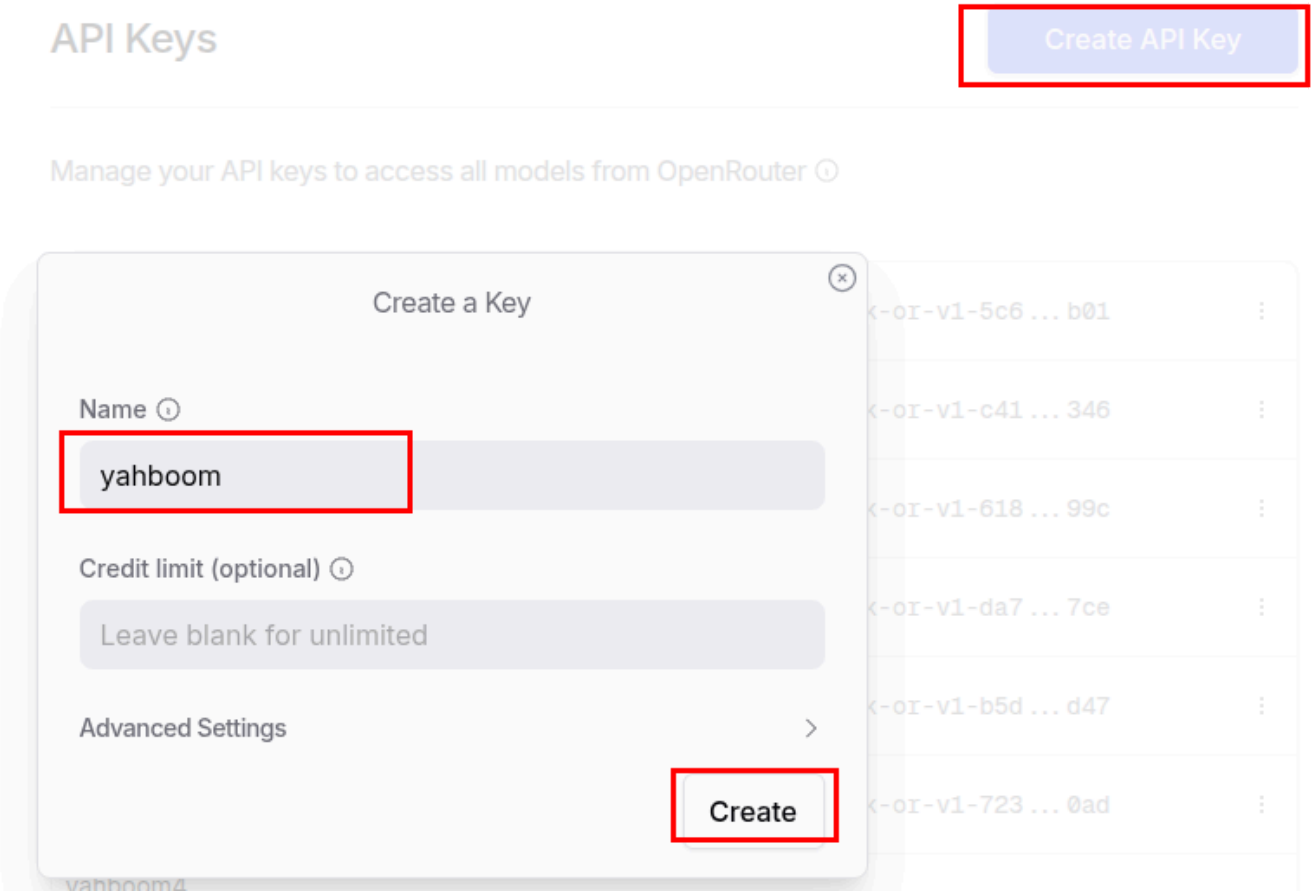

Open the OpenRouter link, click the avatar in the top-right corner to register an account, and use your email for registration. The process is similar to the one described above, so it will not be repeated here.

3.2 Creating an API

- Click `Keys` in the top-right corner to create an API.
